

Rose memorials

Rose garden memorials are one of the most popular forms of commemoration. With over 30,000 roses planted throughout our sites, each rose position offers an elegant living tribute to honour and reflect loved ones. 250 different varieties of standard, bush and weeping roses with an array of beautiful coloured blooms are available to cater for the placement of a bronze plaque and granite base to memorialise you or your loved one.

A selection of rose varieties available across our sites

- Ebb Tide

Caring for our rose gardens

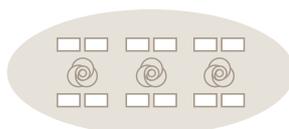

Within our rose memorial areas, loved ones can become a part of a beautiful, cared for garden. Many of our rose beds are additionally planted with vibrant, flowering shrubs which thrive below our standard roses. These perennial plantings not only provide foliage and flower colour while roses are pruned over winter, they ensure that these spaces both support the health of the roses and remain green and beautiful.

Products and memorialisation

Individual rose in bed

An individual rose in bed provides you with your own exclusive rose. Plaques with your loved one's memorial are placed directly in front of your rose.

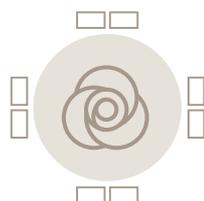

Shared rose in bed

A shared rose in bed provides a memorial on either side of a rose. You may purchase either the left or right side of the rose to place plaques with your loved one's memorial.

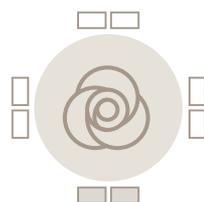

Rose garden position

A rose garden position provides for a single plaque with your loved one's memorial to be placed within the perimeter of a bed of roses.

Individual weeping rose in lawn

An individual weeping rose in lawn provides for the exclusive use of a weeping rose. The position allows for the placement of up to eight plaques with your loved one's memorial.

Shared weeping rose in lawn

A shared weeping rose in lawn provides for the placement of up to two plaques with your loved one's memorial on one side of a weeping rose.
